Environment & Community Benefits

Griffiths, Jacobs and Worcestershire County Council hosted a group of care experienced young people on site in late May.

Alongside their carers, young people were given an update on the project and a short site tour. This was followed by a question and answer session with staff from all three organisations.

It is hoped that some of the students will be able to return for a further visit in July for the installation of the remaining bridge sections.

Further information about the project can be found on the Worcestershire County Council website at <https://www.worcestershire.gov.uk/kepaxbridge> or the Griffiths Community website at https://community.griffiths.co.uk/our_projects/kepax-walking-and-cycling-bridge/
