9th November 2023

Dear resident

Advance notice of start of works – Penrhos Road Active Travel Scheme

Griffiths has been appointed to deliver the first phase of four phases of the above project by the North and Mid-Wales Trunk Road Agent (NMWTRA) and Cyngor Gwynedd, co-funded by Transport for Wales (TfW). In its entirety, the four phases of the overall scheme will complete the Active Travel Route to Bangor station; the remaining 3 phases will be put to tender when funding becomes available, and are separate to this phase of works.

Works will commence along Penrhos Road on **Monday, 13th November 2023** which will continue until late Spring, 2024.

The works will take place for approximately 0.9km along Penrhos road starting at the junction at Coed Y Maes to the junction at Ffordd Coed Mawr. The scheme involves:

- Creating the Active Travel path, which involves making the existing footpath wider (i.e. slightly narrowing the highway)
- Road narrowing
- Installation of new kerbs, tactile crossings and controlled crossings
- Installation of new signage along with radar activated speed reminder signs
- Normal working hours will be 07:30 – 17:30 Monday to Friday

We appreciate this is a very busy stretch of roadway; in order for us to carry out the works safely, temporary traffic lights will have to be used to control traffic flow. These will be manually controlled during peak times.

Should you have any enquiries regarding the project then please get in touch using one of the contact details below. Further information is available on our website: https://community.griffiths.co.uk/projects/

Yours faithfully,

Rich Foxhall,
Public Liaison Officer
