15th December 2023

Penrhos Road Active Travel Scheme

Dear resident,

Firstly we would like to apologise you did not received our letter dated 9th November 2023 to advise you of the start date of this project. We have only today been notified by our mailing provider that due to a technical issue the letters were not distributed. Further, we were not made aware of the issue or the fact the letters were not sent, and have only today been notified.

We would therefore like to provide you with an overview of the scheme along with our contact details, should you wish to contact us directly.

Griffiths were appointed to deliver the first phase of four phases of the above project by the North and Mid-Wales Trunk Road Agent (NMWTRA) and Cyngor Gwynedd, co-funded by Transport for Wales (TfW). In its entirety, the four phases of the overall scheme will complete the Active Travel Route to Bangor station.
The remaining 3 phases will be put to tender when funding becomes available, and are separate to this phase of works.

We started working along Penrhos Road on Monday, 13th November 2023, with this phase of the overall scheme scheduled for completion in late Spring, 2024.

The works will take place for approximately 0.9km along Penrhos road starting at the junction at Coed Y Maes to the junction at Ffordd Coed Mawr.

We appreciate this is a very busy stretch of roadway; in order for us to carry out the works safely, temporary traffic lights are being used to control traffic flow. These are manually controlled during peak times to help alleviate the build-up of traffic.

We've started at the Coed Y Maes junction in order to move further away from the Ysbyty Gwynedd roundabout as the scheme progresses, which will help to alleviate traffic build-up at this busy interchange.

The scheme involves:

- Creating the Active Travel path, which involves making the existing footpath wider
- Road narrowing to accommodate the Active Travel path
- Installation of new kerbs, tactile crossings and controlled crossings
- Installation of new signage
- Installation of radar-activated speed reminder signs
- Normal working hours will be 07:30 – 17:30 Monday to Friday

Please note that we will not be carrying out any work over the Christmas period. We will be securing and closing down the site, removing traffic lights and any temporary parking restrictions associated with our work on **Friday, 22nd December.** These will be reinstated when we return to work on **Monday, 8th January 2024.**

Should you have any enquiries regarding the project then please get in touch using one of the contact details below. You can also visit the project webpage: https://community.griffiths.co.uk/our_projects/penrhos-road-active-travel-scheme-bangor-gwynedd/

Once again, we sincerely apologise for the failure in informing you prior to the start of works, and would like to take this opportunity to wish you all a happy Christmas and best wishes for the New Year.

Yours faithfully,

Rich Foxhall,
Public Liaison Officer
